

Message from the President

To a new stage together with our customers

Mitsui Bussan Chemicals, one of the group companies of Mitsui & Co., Ltd., has developed as a trading company handling a variety of chemical products, especially solvents, paints, raw materials for paints, resins, adhesives, polyurethanes, raw materials for urethane and industrial chemicals.

The following principles guide our actions: “resolve to challenge and create,” “do the right thing properly and joyfully” and “collaborate closely with customers.” Based on these values, we will keep striving to solve various problems faced by our society through chemicals, and contribute to the realization of a sustainable society, giving respectful consideration to the environment. Listening carefully to the concerns and needs of our customers, we will endeavor to improve customer satisfaction through the provision of functions and creation of values as a comprehensive trading company-affiliated trading company dealing with chemical products by fully utilizing Mitsui Group’ s global network and various assets, including customer bases other than those of the chemical industry.

Setting our vision to be “a company that creates added value through a combination of distribution (Mono/products) and technologies/intellectual properties (Koto/services) in various industries related to chemicals” , we will further refine existing distribution business, while in new business domains, strengthening our efforts toward the wellness fields, mainly cosmetics, pharmaceuticals, medical, and health food materials.

In these uncertain times, we will take on the challenge of building businesses that address various social issues, and we will move forward from being a traditional chemical trading company focused on logistics to a new chemical trading company that provides diverse solutions that meet the needs of the times.

We will move forward from being a traditional chemical trading company focused on logistics to a new chemical trading company that provides a variety of solutions in line with the trends of the times.

Please look forward to the future of Mitsui Bussan Chemicals.

Sunao Hatta, President
MITSUI BUSSAN CHEMICALS CO., LTD.

Management Philosophy

Mission

Mitsui Bussan Chemicals Co., Ltd. makes it a rule that all members and staffs to be modest and fair as a member of the Mitsui & Co., Ltd. Group, and comply with the laws, and achieves the maximum satisfaction with the society through good business activities in compliance with the trust of the customers and partners.

Vision

We set ourselves to serve the regional and international society in co-existence with the environment, and maximize the satisfaction of our customers, partners, shareholders and employee equally as our ultimate goal.

Value

- Aspire to set high standards and to contribute to society, with a mind to sympathize with the environment and people.
- Value curiosity and the resolution to challenge and creation.
- Aim to promote talent that can "do the right thing properly and joyfully" through work and experience in the office.
- Back to the basic, provide sustainable service to our customers and partners and value our relationship with such customers and partners.
